Our present class is a 9. Most companies since you have hydrants or places of a year around water supply will lower to a 7 except for the farms, farmowners, and commerical buildings. The Aromas Grange is listed as a commerical building. To get the fire class lowered you need: To have the Fire Chief send a water map; and a list of paid and volunteer employees and list the hydrants as to their size and kind, to the following address: Commerical Risk Services Inc. 10 United Nations Plaza, Attention Public Protection, San Francisco, Ca 94102.
